DETAILED ACTION
EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Anderson on September 19, 2006.

The application has been amended as follows:

In the specification, page 1, line 4, insert ----is a 371 of PCT/US03/39235 filed on 12/10/03 which---- after "This application".

Allowable Subject Matter

2. Claims 1-17 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest, in the claimed combination, a capacitive sensing apparatus having a steerable sensing field comprising a power source having a first ground connection; at least one sensing circuit in communication with said power source, said sensing circuit having a signal processing circuit and an oscillator circuit, wherein said oscillator circuit includes an oscillator and at least one sensing element; and at least one conductive element in communication with a second ground

connection, said at least one conductive element disposed adjacent said sensing element and operative to attract a portion of the sensing field of the at least one sensing element such that the sensing field is made steerable by changing position of either a portion of the at least one sensing element or a portion of the at least one conductive element relative to one another.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
